ContactManager SyncManager **ISyncManager** A ContactSyncManager **IContactSyncManager** +contactAdded() +contactRemoved() +contactUpdated() **IIMContactSyncManager** +add(Contact)() +remove(Contact)() +update(Contact)() +imContactAdded() +imContactRemoved() +imContactUpdated() +add(IMContact)() +remove(IMContact)() +update(IMContact)() ContactSyncManager is registered to ContactManager events and updates external libraries by calling add/remove/update method on IContactSyncManager implementations. External libraries (IContactSyncManager implementations) emit contactAddedEvent, contactRemoved and contactUpdatedEvent.

ContactSyncManager is registered to these events

and updates the ContacList accordingly.
